Hey it's Dan McHale. Very disappointed to tell you my 18 yr old niece has a brain tumor. Had surgery yesterday at U Penn. Biopsy going on now but Docs feedback was not good based on what he saw. This is my other sister's kid, not Coleen who you met at the Archmere cross country event.

Oh Dan I'm so sorry. It's all so unfair. Let me know what I can do- referrals anything you need at Penn a shoulder to lean on. What the fuck man. It all just sucks.

Thanks Hunter. I think she's in good hands at Penn but wanted to let you know. My Dad just died last month so my siblings and I were already a little fried and never saw this one coming but we'll get through it. I appreciate the note and hope you're doing well.
