OBJECTIVE

Senior-level counter-terrorism related team-lead or project manager position. Able and willing to relocate internationally at own expense.

PROFILE

Over 13 years of multi-disciplined experience within the United States Government Intelligence and Federal law enforcement communities. Extensive domestic and international experience in operations conducting threat and vulnerability assessments providing subject matter expertise on terrorism, explosives, and weapons of mass destruction (WMD) disciplines.

PROFESSIONAL EXPERIENCE

- Supported numerous Federal Law Enforcement counter-terrorism operations as a subject matter expert of terrorist tactics, improvised explosive devices and Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) weapons.
- Senior-level Counterintelligence and Counter-terrorism Analyst in support of major European military command senior leaders and Federal-level Law Enforcement Special Agents.
- Anti-terrorism Security Specialist supporting senior leaders responsible for all military operations in Iraq.
- Developed and implemented threat and vulnerability assessment checklists ensuring comprehensive reporting and increasing levels of productivity.
- Electronic Warfare Intelligence Analyst for the National Security Agency (NSA).
- Security Operations Manager for the Department of Homeland Security
- Developed web-based portal on classified networks offering users analytical tools and informational reports based on real-time intelligence data for counter-intelligence and counter-terrorism operations.

SKILLS SUMMARY

- Small and Medium-sized Team and Organization Management and Leadership
- Cost, Resource, Personnel, Scheduling, and Quality Management Experience
- Counter-intelligence Analysis and Operations Experience
- Counter-terrorism Analysis and Operations Experience
- WMD and CBRNE Response Planning and Operations Expertise
- Improvised Explosive Device (IED) Emergence Response Experience
- Extensive Threat and Physical Security Vulnerability Assessment Experience
- Electronic Warfare (ELINT) Analysis

WORK HISTORY

Senior Counterintelligence / Counter-Terrorism (CI/CT) Analyst, April 2006- Present
Chenega Federal Systems; Ramstein, Germany

Provides senior-level analytical support to the US military's senior European Command's (EUCOM) Force Protection Detachment comprised of joint-service DoD special agents from Air Force Office of Special Investigations (AFOSI), Naval Criminal Investigative Service (NCIS), and Army CI under the auspices of the Counterintelligence Field Activity (CIFA).

Counterintelligence / Counter-Terrorism (CI/CT) Analyst; September 2004-April 2006
CACI Premier Technologies Inc.; Heidelberg, Germany

Member of a Counter-Terrorism Analysis Team in support of a major military command headquarters. Provided the organization's senior leadership with operational analysis of possible terrorist threats to US operations and personnel within the commands area of responsibility (AOR), as well as during deployments and contingency operations.

Anti-Terrorism Security Operations Specialist; November 2003-September 2004
SAIC, Baghdad, Iraq; Heidelberg, Germany

Served as the Antiterrorism Physical and Operations Security Specialist in support of a major military command headquarters in Europe and during Operation Iraqi Freedom. Provided terrorist threat and vulnerability reports making recommendations for improving security of critical facilities and persons to include mission essential vulnerable areas, high-density targets, and high value targets.

Unexploded Ordnance Disposal Technician; April 2003-November 2003

Freelance Contractor; Saipan, Northern Mariana Islands; Maui, Hawaii

UXO Specialist for numerous projects in clearance and survey of World War II UXO in areas needed for construction. Responsible for UXO clearance activities (location, detection, excavation, identification, and disposal of ordnance and explosives), range control, UXO health and safety, UXO quality control, handling of explosives, and material management.

Security Operations Trainer and Manager; April 2002-April 2003

Transportation Security Administration, Department of Homeland Security

Trained and supervised over 5,000 Transportation Security Administration security screeners utilizing new Federal Airport Physical Security Standards intended to hinder further international terrorist attacks. Effectively managed the training and operations of Federal Security Checkpoints at eight different International Airports.

Explosive Ordnance Disposal (EOD) Team Leader; April 1999-April 2002

U.S. Army, Fort Polk, LA

As a team leader, provided operational support to law enforcement agencies at multiple levels as a subject matter expert of terrorist IED's and CBRNE weapons. Provided domestic operations support to the DEA, ATF, and FBI, as well as the Secret Service in protection of the President and Vice-President of the United States.

Intelligence Organization Training and Operations Manager; April 1997-July 1998

U.S. Army, Heidelberg, Germany

Prepared training schedules and maintained all records of training for assigned personnel. Coordinated and supervised all training events for the unit. Scheduled and supervised all pre-deployment processing. Ensured all training statistics and percentages were calculated, reported, and forwarded to higher echelons.

Intelligence Requirements Manager; January 1996-April 1997

U.S. Army, Heidelberg, Germany

Received, processed, and tracked intelligence requests for information from subordinate commands to higher echelons. Coordinated the production, receipt, and dissemination of intelligence products with various intelligence organizations around the world.

Electronic Warfare Signals Analyst; February 1994- January 1996

U.S. Army, National Security Agency, Ft. Meade, MD

Analyzed intelligence material related to high priority aerospace targets. Produced intelligence products for worldwide intelligence customers directly supporting their priority intelligence requirements. Provided daily reports for intelligence briefings. Responsible for the operation and maintenance of electronic warfare/signal intelligence equipment.
