PROFESSIONAL EXPERIENCE

DEC 05 – JUN 06, Joint Interrogation and Debriefing Center, Task Force 134, Iraq

HUMINT INTELLIGENCE ANALYST

- Researched databases, built case files, and created questioning plans for over 250 interrogations for over 60 detainees.
- Intelligence gathered facilitated the capture or elimination of individuals involved in anti-Coalition Forces activities to include small arms attacks, assassinations, bombing, kidnappings, and the financing and logistical support of insurgent-type operations.
- Coordinated with numerous U.S. government intelligence agencies and Naval Special Warfare/Naval Criminal Investigative Service, DOD counterintelligence assets, and Iraqi National Intelligence Service (INIS) personnel in support of Multi National Forces Iraq.

SEP 00 – PRESENT, U.S. Air Force, Elmendorf AFB, Alaska

COLLECTION MANAGEMENT

- Managed 70-person intelligence production operation and \$14.6 million in automated acquisition systems.
- Coordinated mission transfers with geographically-separated unit providing local and national leadership with uninterrupted intelligence assessments.
- Interpreted national and military intelligence requirements and tasked operations branch to ensure mission accomplishment while serving as a subject matter expert on two unique intelligence systems.
- Performed daily quality control analysis highlighting deficiencies, eliminating redundancies, and streamlining key processes; increased timeliness and accuracy by 25 percent.
- Collaborated with foreign intelligence agency to test and implement a next-generation mission system. Handpicked to teach technology upgrades to operational watches.

ALL SOURCE INTELLIGENCE ANALYST

- Subject matter expert on specific foreign military and political entities, providing senior leadership critical trend analysis and assessments during real world situations.
- Provided one-on-one and team training sessions to the Operations branch to ensure critical intelligence was identified and reported; increased overall mission situational awareness.
- Created and maintained robust operational databases providing leadership one-stop, click-and-point access for informed predictive adversary intention/analysis.

SYSTEMS OPERATOR

- Provided time-sensitive information supporting the Joint Chiefs of Staff, National Security Agency, North American Aerospace Defense command, and Pacific Command.
- Qualified ahead of schedule on three unique intelligence collection systems.
- Selected to train junior technicians for intelligence system certification exams and career development courses.
