## FBI's Purposely Forgotten HRC Related Laptops

The new modus operandi of our FBI is to destroy and suppress evidence on a selective basis. This past decade has witnessed the political 'weaponization' of the Department of Justice (DOJ) and other government agencies. The majority of the American population has lost confidence in the independence of both the DOJ as well as the courts.

Two more mysterious laptop computers must be added to the current existing ObamaGate/SpyGate list. Seized laptops and servers will ultimately reveal the totality of the treasonous coup plot against President Trump. A second failed impeachment came on the heels of the 2020 Presidential election steal bringing the importance to removing Trump/MAGA.

- Imran Awan/DWS laptop=Capitol PD
- Mills/Samuelson laptops=FBI

Please notice the complete 'Cone of Silence' by the co-conspirators MSM media that conveniently surrounds all of these seized personal laptop computers. This is not by accident but of deliberately planned coordinated actions to control their crafted public narrative. By coordinating the DOJ and a compliant news media, covering the truth is a relatively easy task. Strange that laptops like Hunter Biden's 'Laptop from Hell' would continue to play important roles in the unfolding SpyGate political scandal.

**Nothing is ever truly erases/deleted.**

Cheryl Mills was the former Chief of Staff to then Secretary HRC and was also her personal attorney. Lawyer Heather Samuelson started out as a low-level campaign staffer and later joined Secretary of State HRC as an office assistant. Mills and Samuelson would later be teamed to delete all of HRC's emails from their time at the State Department.

Post **Q# 158** on 11/20/17:

**What is immunity?**

The hierarchy was that Samuelson worked under Cheryl Mills and they both were overseen by lead attorney David Kendall. According to Lisa Page's testimony, the FBI struggled with disagreements for months about the handling of these two incriminating laptops. It was obvious to all that data existed on these two laptops that would cause extreme difficulty to HRC and other top BHO officials.

**We have the server[S].**

Both Heather Samuelson and Cheryl Mills would receive from Lynch/Comey, sweetheart get out of jail immunity deals. Both admitted in this plea deal to the deliberate destruction of subpoenaed emails as did Paul Combetta the computer server technician from Platte River Networks. Unbelievable that top level lawyers admitted deliberating committing criminal acts but ultimately received immunity from the government.

keep secret. Normally to get a special deal, relevant testimony must be provided but no person was held accountable.

### **What if access to the server(s) was deliberate?**

Senator Chuck Grassley smelled a rat and had pushed hard for the public exposure of the famed Wilkerson letters. These Wilkerson letters inappropriately restrict the FBI's scope of data review as well as permitted the previously unheard of destroying the Mills/Samuels' laptops after giving immunity. History will record this very special sweetheart deal as a criminal act in itself.

### **CLINTON FEAR.**

### **JUDGEMENT DAY COMING.**

In addition to general get-out-a-jail-free cards, separate side deals were agreed upon to limit the scope of the exact data search on their devices. Specific time ranges were imposed to restrict finding uncomfortable data. Deal included the destruction of these laptops by the FBI after their restrictive review process.

### **Average people must be able to digest and accept [factual] events.**

### **FISA lead-in [stage 1 act 1].**

The Justice Department agreed not to look at any information/data on either laptop after 1/31/15. This in essence guaranteed that no evidence of obstruction of justice involving HRC's emails would be ever found. It is as if HRC herself was directing the exact scope of the investigation process.

Post **Q# 1978** on 8/29/18:

### **How might this discredit the FBI's investigation into HRC's emails?**

Then by having the FBI destroy the Mills/Samuels' laptops, this guaranteed no future review could alter their warped findings. It was standard operating procedures by the previous corrupt Justice Department to clean up any potential bad loose ends to would alter their narrative.

5/31/2018: Paul Combetta/PRN realizes he forgot and uses Breachbit.

- 6/24/2015: Classified emails found on HRC email/server turned over to FBI.
- 10/3/2015: FBI seizes PRN and Brian Pagliano's (Clinton's NY home) servers.
- 9/16/21: SC John Durham indicates Perkins/Clinton campaign lawyer Michael Sussmann.

### **THE GREAT AWAKENING.**

In defiance of clear leadership orders, a few brave Patriots from inside the FBI did not destroy these 2 critical laptops. Additional rumors state known copies of all the data from of these laptops have been downloaded.

Post **Q# 247** on 12/4/17:

**Think HRC email, Weiner laptop, etc.**

To come up with a believable HRC/Aide's exoneration theory, the FBI/DOJ had to contort like circus acrobats. These 'uniquely crafted' immunity deals will be long remembered by legal historians. Judgement Day is coming, and SC John Durham has begun drop criminal indictments connected to HRC/DNC/Big Tech and more.

### **Hillary Clinton and Foundation.**

All of these seized laptops plus the related servers, will form foundational evidence of future criminal proceedings. Special Counsel John Durham's indictment of Perkins Coie/Clinton campaign lawyer Michael Sussmann connects to HRC/DNC/and all co-conspirators. The coming justice phase of this Storm will be upon all of these Deep State criminals shortly.
