Classification : NATO UNCLASSIFIED

Activity : Steadfast Joist 2008

Title : BEST PRACTICE: Battle Rhythm (BR) presentation format

Observation Description : When new staff or augmentees join an HQ it is often a challenge to find and understand the purpose of each of the meetings, boards and VTCs within the BR.

Discussion : MCC Northwood's BR is explained within a Powerpoint presentation, which highlights not only the overall battle rhythm but the specific events, with additional information on each event. This includes information about the purpose of the meeting, who should attend as well as the meeting's outcomes.

Conclusion : This format gives a clear overview of the the HQ's most important meetings during the day, reducing any unnecessary confusion.

Recommendation : Make this a mature observation and promote it as a Best Practice for NATO-wide promulgation. This Best Practice is originally from the JWC Best Practice database and can be found at this link on the NATO Secret system:
